Local Calling

To Call Another Party On Your Line

Notice To All Customers

When you call telephone numbers that are **NOT** on your party line, dial the number as it appears in your directory.

If you are on a party line and continue to receive a busy signal when calling a telephone number, it is possible the number is a party on your line. This may be verified by calling the telephone company service center.

Efficient party line service depends upon the consideration and courtesy which each customer gives to the other parties on the line. Everyone will receive better service if each customer on the line will observe these rules of courtesy:

1. Be as brief as possible.
2. Space your calls so the other parties can place calls.
3. Relinquish the line to others needing to make emergency calls.

To Call A Party On Your Line

Use a special code number previously assigned

1. Lift the receiver and listen for the Dial Tone indicating the line is clear.
2. Dial the SPECIAL CODE NUMBER, for the party you are calling.

Coal Hill/Hartman.........Dial number & wait for recording, then hang up

Salus................Dial number & wait for recording, then hang up

3. Hang up your receiver. Your telephone and the called telephone will start to ring.
4. Allow sufficient time for the called party to answer. Your telephone will stop ringing when the called party answers. Remove your receiver and begin the conversation.
5. If the called party does not answer within a reasonable length of time, remove your receiver and replace it after a few moments. This will break the connection.

Use Of Party Lines

Continuous use of a party line by any station on the line should be limited to five minutes, whether the party using the station made the call or was called.

Customers shall not use, or permit to be used, profane, obscene or abusive language over the telephone lines. Nor shall they impersonate another person with fraudulent intent or use the telephone lines for any unlawful purpose.

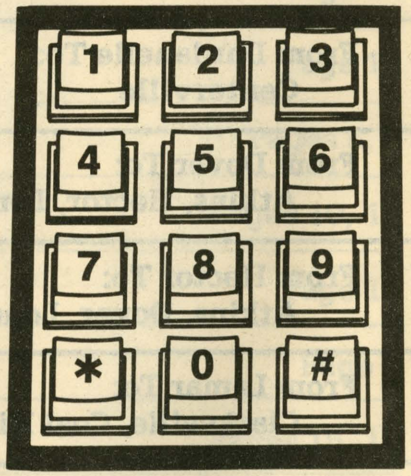
Long Distance Calling From A Party Line

When you call long distance from a party line, an operator will come on the line and ask you the number of the phone from which you are calling.

Warning State Laws

The laws of the State of Arkansas provide that any person who shall willfully refuse to immediately relinquish a party line when informed that such line is needed for an emergency call to a fire department or law enforcement officer or for medical aid or ambulance service, or any person who shall secure the use of a party line by falsely stating that such line is needed for an emergency call, shall be guilty of a misdemeanor punishable by fine or imprisonment.

The law defines an "emergency" as a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential.



Area Codes (000)

Area Codes And Time Zones

Arkansas Area Codes

Each area has a three-digit Area Code. The Area Code for this directory is indicated on the front cover and on your telephone.

The Area Code of the telephone you are calling should be dialed, or given to the operator, if it is different from the Area Code of the telephone you are using. It should not be used if both Area Codes are the same.

When you give someone your telephone number, include your Area Code—it might be needed to place a call to you.

Consult Area Code list on the following pages for specific cities not indicated on these maps.

If you want the Area Code for a place not listed, dial the operator.

Arkansas has been divided into long distance calling areas called Local Access Transport Areas (LATA's). These boundaries determine which company handles your Long Distance Calling. In equal access locations, 1+/0+ long distance calling outside your LATA is handled by your Preferred Long Distance Carrier. Those 1+/0+ calls made within your LATA are handled by your local telephone company.

The state of Arkansas has been assigned four "LATA" areas: Fort Smith, Little Rock, and Pine Bluff.

The exchanges listed in this directory are all in the Little Rock LATA.

Long Distance Calling

1 +

Equal Access

Not all exchanges covered by this directory have Equal Access available. Notification will be made to each Exchange as Equal Access is available for that area. At that time you must choose a preferred long distance carrier for calls outside your LATA boundary. You will continue to use the 1 + dialing method and will be connected to that carrier's service automatically.

Alternate carriers connect calls between LATA's and beyond. You may use other long distance carriers by contacting them for dialing instructions.

Direct Distance Dialing

Direct dial if you wish to talk with anyone who answers. Rates for calls that you dial yourself are lower than for calls dialed by the operator. Charging begins when the called telephone is answered in person or by an automatic answering machine.

- To call within your area code ....**dial 1 + Telephone Number**
- To call outside your area code ....**dial 1 + Area Code + Telephone Number**

Long Distance Directory Assistance

- For local numbers.......**dial 1 + 411**
- For numbers within your home area code ....**dial 1 + 555-1212***
- For numbers outside your home area code ...**dial 1 + Area Code + 555-1212***
- For the telephone numbers of businesses and people who have "800" numbers ....**dial 1 + 800 + 555-1212***

* There may be a charge for these calls.

Directory Assistance Charges

In some states you may be charged for calls to local directory assistance. You can avoid directory assistance charges by looking up numbers in the telephone directory and by jotting down frequently called numbers. On those occasions when you do have to call directory assistance, provide the operator with complete information: full names, accurate spelling and exact addresses.

Blind and physically disabled persons may apply for an exemption from directory assistance charges.

To help you avoid directory assistance charges, GTE furnishes one local telephone directory for each telephone line. Additional directories can be obtained from your service office.

Tips To Help You Save On Charges To Directory Assistance

1. The Yellow Pages listings of restaurants, theaters, department stores, government agencies, and other frequently used services can help you locate numbers when you are unsure of the name, location or spelling of a specific service or business establishment.

2. If you need two numbers, request them both at the same time, and save a second call to Directory Assistance.

Arkansas Rate Discount And Application Periods

Within your GTE service area, direct dial rates vary depending on what time of day you make your call.

Check with the long distance company you use to dial outside your service area to get its discount rates & holidays.

	M	T	W	T	F	S	S
8:00 a.m. to 5:00 p.m.	■	■	■	■	■	□	□
5:00 p.m. to 11:00 p.m.	▨	▨	▨	▨	▨	□	▨
11:00 p.m. to 8:00 a.m.	□	□	□	□	□	□	□

■ **DAY Highest Rate** ▨ **EVENING Lower Rate** □ **NIGHT/ WEEKEND Lowest Rate**

Long distance calls originating in one rate period and continuing into another will be recorded and billed at the rates applicable to both periods.

Long Distance Calling

0+

Operator Assisted Dialing

Collect or Person-to-Person calls, calls charged to another number or to a Calling Card, calls placed from coin phones or from hotel guest phones, or calls for which Time and Charges are requested are Operator Assisted calls. Higher rates apply to station calls dialed by the operator, Collect calls, Person to Person calls, calls billed to a Calling Card or to another number.

Person-to-Person, Collect, Calling Card, Third Number Billed and Time and Charges:

- To call within your area code
  ....**dial 0 + Telephone Number**

- To call outside your area code
  ....**dial 0 + Area Code + Telephone Number**

Calling Card Service:

- From Touch Calling phones
  ......**touch 0 + Telephone Number**
  (wait for tone or tone and announcement)
  ....**+ Calling Card Number**
  (may not be available in all areas)

- From Dial phones
  ....**dial 0 + Telephone Number**
  (give Operator your Calling Card number)

Toll Free Calls

You can call **free** to telephone numbers which are preceded by Zenith, Enterprise or area code "800." Dial the operator and ask for the Zenith or Enterprise number. Dial "800" numbers direct. A separate Centralized Information Center is maintained for the "800" area code numbers and may be reached by dialing as you would to any other Distant Information Center: dial 1, then the area code "800," followed by 555-1212.

Person-To-Person Calls

Place the call with the operator if you wish to talk to a particular person or extension. Charging starts when the conversation begins with the extension phone, the person called or anyone else agreed upon. Rates are highest for Operator Assisted Person-to-Person calls.

Conference Calls

When you need to talk to people in different places at the same time, make a conference call. Consult the Yellow Pages for a service provider.

Collect, Calling Card And Calls Charged To Another Number

Call Collect if the person or firm you are calling agrees to pay the charge. You can also bill calls to your Calling Card or to another number. Place these calls with the operator. Operator Assisted rates apply.

Mobile—Air–Land–Marine Calls

You can make calls to autos, trucks, trains, aircraft or boats equipped for telephone service. Dial the operator and ask for the Mobile Service Operator or the Marine Operator unless you've been instructed otherwise.

Overseas Calls

Calls to most of the world's telephones can be made from your phone. Dial the operator and give the name of the country you wish to call. Rates and reduced rate periods on calls to other countries differ from those on calls to U.S. points.

Long Distance Calling

International Calling

To Place International Calls Direct:

Dial 011 + Country Code + City Code + Telephone Number

After dialing the entire number, allow at least 45 seconds for the ring to start.

Also, because "0" (operator) is the first digit of the International Access Code (011), please remember to dial the second digit (1) within **three seconds**, or you will reach the local operator.

To Place Operator Assisted, Person-To-Person, Collect, Third-Number Billed, and Calling Card Calls:

Dial 01 + Country Code + City Code + Telephone Number

Before your call is completed, the operator will come on the line to ask for the information needed for the type of operator assisted call you are placing.

Dial "0" Operator if you need assistance:

- To obtain a telephone number you don't know.
- To obtain City Routing codes.
- For help in completing a call.
- For credit on a call with which you had difficulty.

Dial "0" for Country/City Codes not listed.

***City Codes not required.**

Doing Business With Us

Obtaining Directories

Additional local directories may be obtained at your GTE service office, or by calling your service office.

To order out-of-town directories, please call 1 + 800-792-2665. In some cases a charge may apply for out-of-town directories. Telephone directories of principal United States cities are available for your use at many libraries.

Yellow Pages Advertising

Looking for more business? Advertise in the GTE Yellow Pages. Call your local service office, or contact a Yellow Pages representative at 1-800-255-4260. Let us help you with your advertising needs.

Using The Directory And Directory Assistance

When a phone book is available, please try to look up the number you need before you dial directory assistance. GTE does not charge for local directory assistance, but there may be a charge for 555-1212. We provide this service free of charge with your cooperation because using the directory keeps down your rates and our cost.

Errors

Every effort is made to make the directory as accurate as possible. Should an error occur in your listings, please notify your service office so the listing can be promptly corrected in the directory assistance files, and in future directories.

Finding A Directory Listing

When looking for an individual's listing, those that use an initial and last name will appear before a listing where the first name is spelled out, i.e. Jones, B, before Jones, Bob.

Names consisting of all capital letters such as radio or television stations can be found at the beginning of the section for their initial letter.

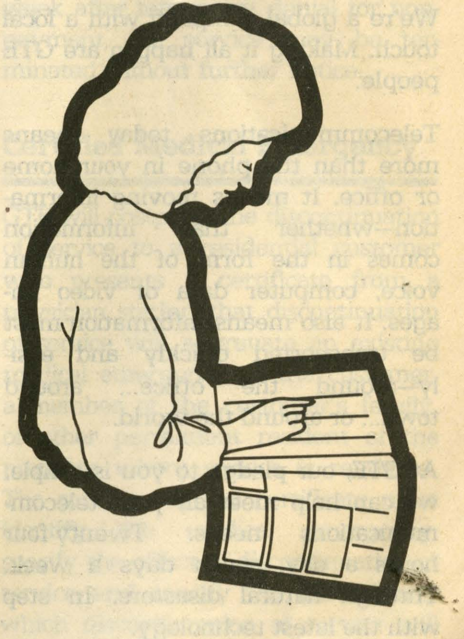
Listings that start with a number will be alphabetized as if the number were spelled out. For example, to find the 84 Lumber Co., look under "Eighty-four Lumber Co."

Your listing does not have to include your address. If you want to change or add listings after service has been established, there is usually a charge.

Listings

Every customer may be listed once in the alphabetical section of the directory without charge. Additional listings may be arranged for at an additional charge according to the type of listing required.

If you don't want your name published in the book, or given out by directory assistance, then you may arrange for an unlisted number. There is a monthly charge for this service. Once you have an unlisted number, be very careful how you give it out. You can help protect your number by giving it out only when absolutely necessary. Contact your service office for information on our different listings.



Doing Business With Us

About GTE

GTE has been in the telecommunications business for more than 70 years. We serve millions of customers in 40 states, as well as in Canada and the Dominican Republic. But no matter how large we've grown over the years, we've never lost our link with the local communities we serve.

We understand that our success as a global competitor is tied to how well we serve local needs. Keeping in touch with your communications needs has been the driving force behind GTE for more than seven decades.

But, we are also keeping up with your future needs—with advances in technology that will carry telecommunications into the next century. We're a global company with a local touch. Making it all happen are GTE people.

Telecommunications today means more than the phone in your home or office. It means moving information—whether that information comes in the form of the human voice, computer data or video images. It also means information must be transported quickly and easily—around the office... around town... or around the world.

At GTE, our pledge to you is simple: we can help meet all your telecommunications needs. Twenty-four hours a day, seven days a week. Through natural disasters. In step with the latest technology.

Wherever the needs may be—whether you're moving information via a computer terminal, a fax machine or through the spoken word. Whatever the need, GTE helps keep you in touch with the world.

Recognizing GTE Employees

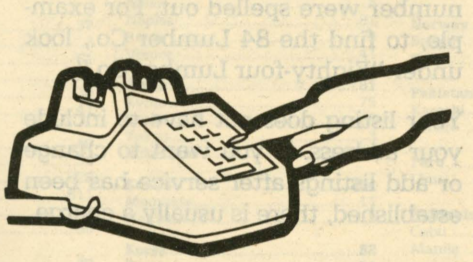
For your protection, every GTE employee carries an identification badge with a picture and the employee's name.

Rates & Policies

Copies of our rules and regulations and schedule of rates are available at our service office and are open to public inspection.

Number Changes

The telephone company reserves the right to and may, at its discretion, change the customer's telephone number.



Handling Unwanted Phone Calls

If you do not want to talk to a person selling a product or service by telephone, just say "no thank you," and hang up.

If you're bothered by harassing or anonymous phone calls, try these techniques to discourage them.

Always hang up immediately at the first obscene word or if the person on the other end of the line doesn't respond after you've said "hello" twice.

Don't talk to the caller. This is what he or she wants you to do.

Don't give out any information or let the caller know if you're alone. Teach your children to say, "Mom or Dad can't come to the phone. May I take a message?"

If the problem occurs continuously over an extended period, you should report it to your local law enforcement agency. Keep a record of the days and times of the calls, and note the caller's sex, voice, accent and comments. This information could assist the police.

It is a crime to make harassing, obscene or anonymous phone calls under both federal and state laws.

Prosecuting Fraudulent Callers

It is illegal for another person to charge long distance calls to your number or calling card without your permission. People using unauthorized calling cards of phone numbers to avoid charges are subject to prosecution and may be imprisoned, fined, or both.

Doing Business With Us

Establishing Or Transferring Phone Service

- To establish new or to transfer *residential* phone service, please call your service office.
- To establish new or to transfer *business* phone service, call or visit your service office.

To enable us to process your order to establish phone service, we will need to know your complete address, and how you want to be listed in the directory. We also need to know about previous telephone service in your name, and other credit information. We will ask for identification, and a number where you can be reached either at work or through a friend or relative until your service is established.

Installation Rates

Installation rates will vary with the needs of your service. There are many steps involved in installing your phone service, but not every customer needs each step. The amount of work needed to install phone service for you will depend on the type of facilities and service you want.

Deposit Policy

Customers may be asked to pay a deposit to establish telephone service. The amount of your deposit is determined when you apply for service.

You Will Be Billed For Changes In Your Service

All changes, except termination of service, and disconnection of certain options, require a service charge. The amount you are charged depends on the type of change requested. Consult your service representative for different services.

Tariffs

As a customer, you have the right to information concerning rates and services and to inspect or obtain at reproduction cost a copy of the applicable tariffs and service rules.

Your Telephone Bill

How You Are Billed

Charges for local service and equipment are billed one month in advance. Telegrams and repair charges are billed after they have been placed.

How, When, & Where To Pay Your Bill

Your payment due date is at the bottom of your bill. Your payment is considered past due if not paid by that date.

You can mail your payment or pay your bill at your service office. You can save time if you use your payment portion of your bill when paying in person. There is a charge for each returned check.

Error On Your Bill

If you have a question on your bill, call your service office. Explain the possible error to the representative who will help you. If the error cannot be resolved, please pay the undisputed charges on time so you'll maintain a good payment record while the problem is being investigated.

Paying The Bill On Time, So Your Service Will Not Be Disconnected

If your payments are not received by the due dates, or you do not meet your mutually agreed upon payment arrangements, your telephone service may be disconnected.

How To Get Your Service Restored If It Has Been Disconnected For Nonpayment

All delinquent charges billed for service must be paid before your service can be reconnected. You must also pay a charge to have the service restored. You may also have to reestablish your credit, and as a result, a deposit may be required. If service is not restored within one week after temporary denial for nonpayment, the service may be terminated without further notice.

Certified Medical Emergency

GTE will postpone the discontinuation of service to a residential customer who presents a certificate from a physician stating that discontinuation of service will aggravate an existing medical emergency of the customer, a member of the customer's family, or other permanent resident of the premises where service is rendered. The contents of the certificate must identify the medical emergency, specify the effect of discontinuation of service and specify the time during which discontinuation of service will aggravate the medical emergency.

Doing Business With Us

Liability Of Utility

GTE Arkansas has tariff rules dealing with the limitation of its liability in connection with errors and omissions relating to telephone service. These rules do not apply to situations involving willful misconduct, fraudulent conduct or violations of law. There are special provisions dealing with gross negligence. If an error or omission has been made by GTE Arkansas in your listing in the telephone directory, you may be entitled to relief under these tariff provisions. In many instances you may be eligible for a credit allowance in accordance with tariff rules. This information notice summarizes the provisions of such rules. For complete information on the tariff provisions, please contact your service office.

The purpose of telephone utility credit allowance and limitation of liability tariff rules is to relate the telephone company's responsibility for errors or interruptions to amounts not to exceed the pro rata charges for services rendered. The basic rule applicable to all telephone service is as follows.

Except as noted above and fully set forth, the liability of the utility for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in any of the services or facilities furnished by the utility (including exchange, toll, private line, supplemental equipment, TWX, directory and all other services) shall in no event exceed an amount equal to the pro rata charges to the customer for the period during which the services or facilities are affected by the mistake, omission, interruption, delay, error or defect, provided, however, that where any mistake, omission, interruption, delay, error or defect in any one service or facility affects or diminishes the value of any other service said liability shall include such diminution, but in no event shall the liability exceed the total amount of the charges to the customer for all services or facilities for the period affected by the mistake, omission, interruption, delay, error or defect.

Interruption Of Service

The specific form of rule applicable to interruptions in exchange telephone service is as follows:

The utility shall allow, for interruptions in exchange telephone service of 24 hours or more not due to conduct of the customer, an amount equal to the fixed monthly charges for exchange service multiplied by the ratio of the days of interruption to thirty days. When interruptions continue beyond 24 hours, credit allowance will be given in successive 24-hour multiples.

Similar but not identical provisions apply to private line and other telephone services. For details of provisions covering allowances for interruption in such other services you should call your GTE service office.

Liability For Directory Advertising

For errors or omissions in listings or advertisements in telephone directories, allowances are provided as follows:

A. For listings in telephone directories furnished without additional charge, an amount not in excess of the minimum monthly charge to the customer for exchange service during the effective life of the directory in which the error or omission occurred.

B. For listings in telephone directories furnished at additional charge, an amount not in excess of the charge for that listing during the effective life of the directory in which the error or omission occurred.

C. For advertisements in classified directories, an amount based upon pro rata abatement of the charge in such degree as the error or omission affected the advertisement.

For information on allowances available in the event of errors or omissions in information records or in TWX or other special directories, you should contact your service office.

Our Special Services

More than a century ago telephone service revolutionized the way we live both in the home and at the office. Today's advances in telecommunications provide even greater convenience and efficiency. Features like Call Waiting, Call Forwarding, Speed Calling, and Three Way Calling are now available in your area. Plus newer features like Cancel Call Waiting and more are being offered to enhance your choices and fit your changing lifestyle. These electronic services save you time to do the really important things—like visiting with family or friends, or working in special business, community, school or church projects.

You no longer have to wait by the phone for important calls, irritate those calling you with a constant busy signal or waste time making callbacks. Bring today's technology into life with Custom Calling Services from GTE.

Please check with your GTE service representative for the Custom Calling features available in your location.

Call Waiting

Enables you to answer a second call while placing your first on hold.

1. A short "beep tone" alerts you that there is an incoming call.
2. Press the receiver button down and release quickly.
3. You will now be connected with the second caller. (Your original call will be on "hold.")
4. Press the receiver button down and release quickly.
5. You will now be reconnected with your original call.

Helpful reminders:

- If you wish to end the original call when you hear a second call waiting, simply hang up. The phone will ring. Answering it will connect you to the second call.
- You may alternate between calls as often as necessary simply by pressing your receiver button.
- If the incoming call remains unanswered, a final "beep tone" will sound ten seconds later.
- Try not to keep either caller on "hold" for any extended time. Offer to call them back or to take a message.
- When using Call Waiting, subsequent callers will hear a busy signal.

NOTE TO COMPUTER USERS: If using a modem, the Call Waiting tone will interrupt on-line usage causing lost data. You may want to consider a second phone line.

Using Cancel Call Waiting

In most exchanges, you may Cancel Call Waiting before making a call as fllows:

1. Listen for dial tone.
2. * PRS 7 OPER 0
   Push *, 7, 0 buttons.
3. Listen for second dial tone.
4. Dial telephone number of party yo wish to call.

In most exchanges, you may Cancel Call Waiting during a call as follows:

1. Press the receiver button down and release quickly.
2. Listen for second dial tone.
3. * PRS 7 OPER 0
   Pus *, 7, 0 buttons.
4. Confirmation tone is heard. Conversation is then restored.

Note: The Call Waiting feature is automatically restored when you hang up. Cancel Call Waiting must be activated on a per call basis. (Rotary dial customers may dial 1170 instead of 70#).

Call Forwarding

Lets you "forward" your calls to another phone number.

To activate (to forward your calls):

1. Listen for dial tone.
2. PRS 7 ABC 2 #
   Push 7, 2 and # buttons.
3. Listen for second dial tone.
4. Push the phone number of the location that you want your calls forwarded to...
5. When phone is answered,* Call Forwarding goes into effect.

*If phone is busy or not answered...repeat steps 1–4 immediately. Two "beep tones" signal the service is in effect.

Helpful reminders:

- You can still make outgoing calls when Call Forwarding is "on".
- One short "reminder ring" will be heard at your phone anytime a call comes in and gets forwarded.
- Be sure to notify the person you are forwarding calls to.
- On calls forwarded to long distance numbers, you will be charged long-distance rates.
- Calls continue to be forwarded until you deactivate.
- If you have Speed Calling, these codes may be used to set up Call Forwarding.

To deactivate (restore normal answering):

1. Listen for dial tone.
2. PRS 7 DEF 3 #
   Push the 7, 3 and # buttons.
3. Two "beep tones" indicate that Call Forwarding has been deactivated.

Our Special Services

Speed Calling

Enables you to place both local and long distance calls by pushing just a single digit on your phone.

To set up or change the 8 phone numbers on your Speed Call list:

1. Fill out a Speed Call list. (You may list any eight phone numbers— we suggest including two or three emergency numbers.)
2. Listen for dial tone.
3. PRS 7 GHI 4 #

   Push the 7, 4 and # buttons.
4. Listen for second dial tone.
5. Push the one-digit Speed Call number that corresponds to a phone number from your list.
6. Immediately push all digits of that phone number. (Include 1 and Area Code if applicable.)
7. A short "beep tone" confirms that this number has been set up for Speed Calling.
8. Hang up.

Repeat... Steps 2 through 8 for your remaining seven Speed Call numbers and the corresponding phone numbers.

To call any phone number on your setup list:

1. Listen for dial tone.
2. Push the one-digit Speed Call number corresponding to that phone number.
3. #

   Push # button. (To speed the call even faster.)

Important Note:
In communities where "9-1-1" Emergency Service is available, the "9-1-1" number cannot be set up for Speed Calling.

Speed Calling 30

Enables you to place both local and long distance calls by pushing just two digits on your phone.

To set up or change the 30 phone numbers on your Speed Call list:

1. Fill out a Speed Call list. (You may list any 30 phone numbers—we suggest two or three emergency numbers.)
2. Listen for dial tone.
3. PRS 7 JKL 5 #

   Push 7, 5 and # buttons.
   *Clarksville, Salus & Hartman Customers dial 74.
4. Listen for second dial tone.
5. Push the two-digit Speed Call number that corresponds to a phone number from your list.
6. Immediately push all digits of that phone number. (Include 1 and Area Code if applicable.)
7. A short "beep tone" confirms that this number has been set up for Speed Calling.
8. Hang up.

Repeat... Steps 2 through 8 for your remaining 29 Speed Call numbers and the corresponding phone numbers.

To call any phone number on your setup list:

1. Listen for dial tone.
2. Push the two-digit Speed Call number corresponding to that phone number. Push # button.

Important Note:
In communities where "9-1-1" Emergency Service is available, the "9-1-1" number cannot be set up for Speed Calling.

3-Way Calling

Lets you talk to two separate parties at once (either one or both can be long distance).

To add a third party to a phone conversation:

1. Depress the receiver button and release quickly. (This puts the first party on "hold.")
2. Listen for dial tone.
3. Dial telephone number of party you wish to add to the conversation. (See also "Important notes" below.)
4. Depress the receiver button and release quickly. You will now be connected with both parties.

To drop first party from conversation:

First party simply hangs up.

To drop third party from conversation:

Press your receiver button down and release quickly.

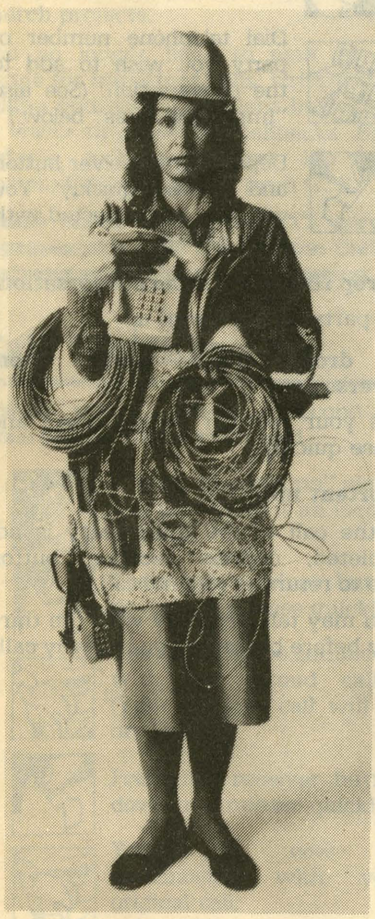
Important notes:

- If the call to the third party is not completed, depress receiver button twice to return to original call.
- You may talk privately with the third party before beginning your 3-way call.

Our Special Services

Phone service is changing. But it doesn't have to be a problem...

Deregulation has brought about many changes in the telephone industry and has introduced a number of choices for you. One of the recent changes involves the responsibility for the inside wiring and telephones in your home. As a result of an FCC ruling, the responsibility has been transferred to you, the consumer. You can choose to repair the telephone equipment yourself or have GTE take care of it.



GTE has two plans you can choose from if you wish to take advantage of GTE's expertise in telephone maintenance. With Wire Care Plus℠ or the Phone Rental Program, GTE will take care of your telephone service—all of it, from our office right up to the telephone itself. With either of these two plans, you pay only one low monthly fee. All service visits for repair are included in the cost of the plan.

Wire Care Plus℠—plan provides you with complete and worry-free maintenance of the wire which runs through your home or place of business. "Wire Care Plus℠" costs only a minimal amount each month and is an ideal way for you to avoid costly repairs in the future. If you do not choose to purchase "Wire Care Plus℠" and still want GTE to fix your broken inside wiring you will be charged on a time and material basis.

Phone Rental Program—Our telephone rental package is the most complete service available from GTE. GTE will provide and maintain a quality touchtone telephone in your home or business for just pennies a day. A GTE repair specialist will repair or replace the inside wiring and/or the rental telephone at no extra charge if you have service problems. With the Phone Rental Program, you won't have to worry about owning and repairing your own phone.

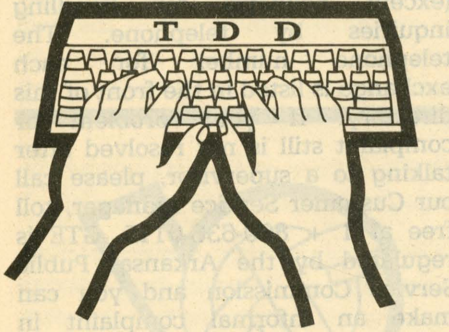
Available to residential and single line business customers only.

To learn more about the benefits of Wire Care Plus℠ and the Phone Rental Program, contact your GTE Service Office.

Our Special Services

Services For The Physically Impaired

A discount is available on some items if a person is unable to use the telephone service without that item. You are required to be certified as physically impaired. Please contact your service office for more specific information.



TDD/TTY Directories & Listings

Any customer having TDD/TTY service may have their listing in the white pages of the telephone directory marked with a TDD/TTY indicator. This indicates to those calling you that you have the ability to communicate with them on a TDD. Those wishing to have this indicator on their listing must tell their service representative so it can be arranged.

TDD/TTY Service Calls

Your GTE service office also maintains a TDD for you to call with questions and/or requests for service or repair work. This number is available during our normal service office hours.

For service office requests,
call ....1 + 800-222-8339

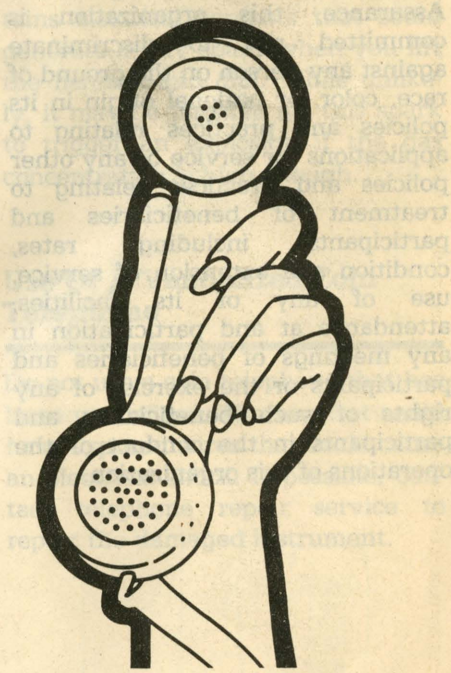
Touch Calling

Push-button dialing offers a fast and accurate way to reach other numbers. It also provides access to all services that are available now or will be available soon.

Calling Card

A Calling Card offers many conveniences. When placing long distance calls away from your home or office, your calls will automatically be charged to your monthly phone bill. You can talk as long as you want at a coin phone without worrying about having enough change to pay for the call. And, you won't have to wait for an operator to verify billing your call to a third number.

GTE customers can obtain a Calling Card at no cost. Call your Service Office for details.

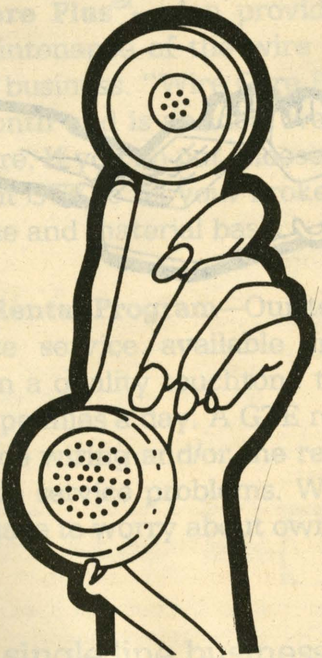


Consumer Tips

Statement Of Nondiscrimination

GTE has filed with the Federal Government a Compliance Assurance in which it assures the Rural Electrification Administration that it will comply fully with all requirements, of Title VI of the Civil Rights Act of 1964 and the Rules and Regulations of the Department of Agriculture issued thereunder, to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in the conduct of its program and the operation of its facilities. Under this Assurance, this organization is committed not to discriminate against any person on the ground of race, color, or national origin in its policies and practices relating to applications for service or any other policies and practices relating to treatment of beneficiaries and participants including rates, condition and extension of service, use of any of its facilities, attendance at and participation in any meetings of beneficiaries and participants or the exercise of any rights of such beneficiaries and participants in the conduct of the operations of this organization.

Any person who believes himself, or any specific class of individuals, to be subjected by this organization to discrimination prohibited by Title VI of the Act and the Rules and Regulations issued thereunder may, by himself or a representative, file with the Secretary of Agriculture, Washington, D.C. 20250, or the Rural Electrification Administration, Washington, D.C. 20250, or this organization, or all, a written complaint. Such complaint must be filed no later than 90 days after the alleged discrimination, or by such later date to which the Secretary of Agriculture or the Rural Electrification Administration extends the time for filing. Identity of complainants will be kept confidential except to the extent necessary to carry out the purposes of the Rules and Regulations.



Let Us Know If You Are Not Satisfied

If you have a complaint about telephone rates and/or service, we encourage you to speak to a service representative in our service office. If the problem is not resolved, you may ask to speak with the Supervisor for that work group. Our service office is open from 8:00 a.m. to 5:00 p.m. Monday through Friday (except holidays) for handling inquiries by telephone. The telephone number for each exchange is listed in the front of this directory. If your problem or complaint still is not resolved after talking to a supervisor, please call our Customer Service Manager, toll free at 1 + 800-638-0115. GTE is regulated by the Arkansas Public Service Commission and you can make an informal complaint in writing or by telephone or personal appearance to the Commission without legal assistance. The Commission office is located at 1000 Center St., Little Rock, Arkansas 72201 and their toll free number is 1 + 800-482-1164. Mailing address is: P.O. Box C-400, Zip 72203.

Consumer Tips

Recording Phone Calls

If your conversation is being recorded for business or other reasons, you will hear a beep tone every 15 seconds. Use of a recorder without a recorder connector containing a beep tone warning device is not permitted, except on emergency reporting systems including Police and Fire department lines.

Phone Receiver Off The Hook

At times you may not wish to receive incoming calls. Please do not leave the receiver off the hook as this unnecessarily congests the switching equipment. In some cases, we may have to disconnect your line to avoid overloading the equipment. When this occurs, your telephone will not work until it is reconnected in our switching office. We suggest if your phone is equipped with a jack, simply unplug it.

Attachments To Telephone Equipment

Attachments connected to GTE lines must be in compliance with company tariffs and Federal Communications Commission regulations.

Telephone Safety

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

Use Of The Telephone Near Water

The telephone should not be used while you are in the bathtub, shower or pool. Immersion of the telephone or handset in water could cause electrical shock.

Use Of The Telephone During An Electrical Storm

You should avoid using a telephone during an electrical storm in your immediate area; calls of an urgent nature should be brief. There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.

Use Of The Telephone To Report A Gas Leak

If you think you have found a gas leak, you should not use a telephone in the vicinity of the leak until the leak is repaired. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset and dial. While unlikely, it may be possible for this spark to trigger an explosion if the gas concentration is high enough.

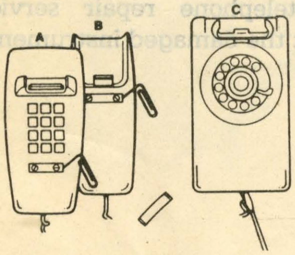
Use Of A Vandalized Coin Telephone

Do not use a coin telephone that has been vandalized. The handset could have exposed wires that could cause an electrical shock. If possible, contact telephone repair service to report the damaged instrument.

Consumer Tips

Customer Installation Guide For A Wall Phone

- Read through the complete instructions before starting.
- If you use a pacemaker, don't attempt a telephone installation.
- Avoid touching more than one wire or terminal at one time.
- If you have more than one phone, take the handset of the one you're not working with off the hook.
- Don't work on a wet floor or touch grounded objects such as water faucets, pipes or electrical appliances while you work.
- Work only with outlets and wires that you are sure are part of your telephone installation.
- Don't connect household power to telephone connections.
- If it is necessary to leave bare wires exposed for any length of time, cover each wire end with electrical tape.

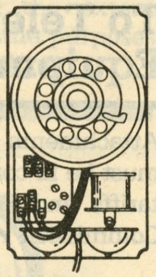


1. Remove Cover of Existing Phone

Find your phone style below. If you have style A or B, begin by using a paper clip to remove the clear plastic plate that covers your phone number. Under the plate you'll find two screws. Loosen them and the phone cover can be pulled forward and removed.

For style C use a screw driver to push in on the metal tab at the bottom of the phone. Pull up the phone cover and remove it.

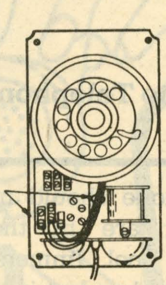
2. Remove Wiring



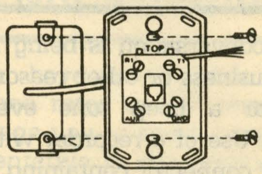
Now locate the colored wires that come out of the wall and are screwed to the phone as shown in the illustration. Loosen the screws that hold them, and pull the wires away from the phone.

3. Remove the Phone

Next remove the 2, 3 or 4 screws that fasten the phone to the wall and take it down.



4. Attaching Modular Plate to Wall



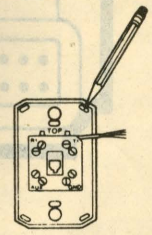
Pick up your new modular connecting plate, and find the word TOP on the front. Position the plate with this word up as illustrated. Take the telephone wires coming out of the wall and pull them through any convenient opening leading to the recessed portion of the plate.

NOTE: Do not remove the protective tape from the backside of the plate.

If your phone wires come out of an electrical box, the modular plate can be mounted right to the box as shown in step 4. Use the two screws provided. Remember to position TOP up.

If the phone wires come out of a hole in the wall rather than an electrical box, see 4a.

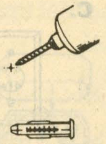
4a.



For this job, you'll need to use the wall anchors provided in order to mount the plate to the wall. Start by holding the plate on the wall over the wires and marking two spots on the wall with a pencil. Be sure to mark through the opposite corners of the plate as shown.

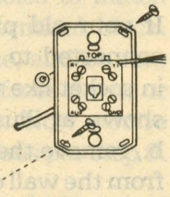
Wall Phone—Continued

4b.



Then drill or punch two 3/16-inch holes into the wall board at the pencil marks. Push a wall anchor into each hole until the top is flush with the wall.

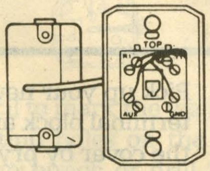
4c.



Now mount the plate to the wall anchors using the screws provided. When the screws are all the way in, give them both up to six complete additional turns to fully seat the anchors.

5. Wire the Modular Plate

Locate the four pairs of small connecting screws on the modular plate, and fasten the wires under them as follows:



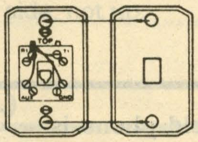
Red wire—Screw R1
Green wire—Screw T1
Black wire—Screw AUX
Yellow wire—Screw GND

(If necessary, strip the outer jacket of the wire to expose about six inches of wire length, and then trim about 1/2-inch of insulation from the end of each wire. Be careful not to nick the copper wires during this process.)

If you only have two or three wires, just connect them as directed above. Cut off any excess wire ends.

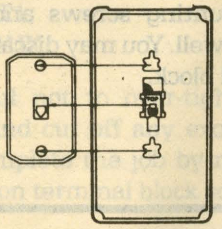
Neatly tuck any wire slack into the recessed portion of the plate. Position the outer jacket of the wire so that it just protrudes through the opening.

6. Mount Cover



Complete the plate mounting by replacing the protective cover on the modular plate as shown. Be sure that the plate does not pinch the wires and that it snaps into place evenly.

7. Mounting the Phone



You'll note that the back of your phone has two slots which match the two metal buttons on the modular plate. It also has a plug which matches the jack in the center of the mounting plate. Mount the phone by lining up the plug with the wall plate jack. Press it against the wall, and slide it down until it feels secure. (Your phone may have a locking lever on the side—pull out to mount, push in to lock.)

Testing Your Installation

Be sure all telephones have the handsets hung up.

Now lift the handset of the new installation. You should hear dial tone. If the dial tone does not go off when you dial:

- Remove the phone from the wall.
- Remove the block cover.
- If you have a telephone at a location other than the one you are connecting, take the handset off the hook. (This will keep the phone from ringing and reduce the possibility of your contacting electrical current.)
- Switch the red and green wires R1 to T1; T1 to R1.
- Snap the cover back in place.
- Test the phone again.

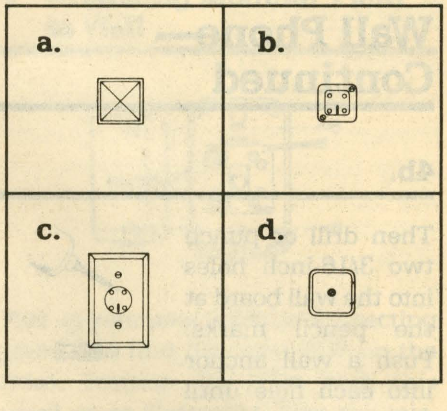
If you need assistance, call the telephone number you were given.

Consumer Tips

Customer Installation Guide For A Desk Phone

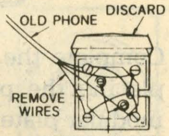
- Read through the complete instructions before starting.
- If you use a pacemaker, don't attempt a telephone installation.
- Avoid touching more than one wire or terminal at one time.
- If you have more than one phone, take the handset of the one you're not working with off the hook.
- Don't work on a wet floor or touch grounded objects such as water faucets, pipes or electrical appliances while you work.
- Work only with outlets and wires that you are sure are part of your telephone installation.
- Don't connect household power to telephone connections.
- If it is necessary to leave bare wires exposed for any length of time, cover each wire end with electrical tape.

START by locating the kind of telephone connection you have now from the drawings shown, and then follow the proper sequence.



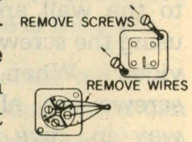
1a.

If your old phone is connected to a plastic block with a hinged cover like the one shown at illustration a., snap the cover open. You'll find wires connected to two, three or four screws. Loosen the screws and remove the wires coming from the old phone and also those coming from the wall. Then locate the two mounting screws and remove them as well. You may discard this old terminal block.



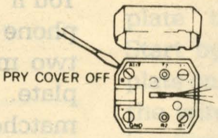
1b.

If your old phone is connected to a plug-in socket like the one shown at illustration b., remove the socket from the wall or baseboard by taking out the two mounting screws. Turn the socket over, and remove the telephone wires by loosening the hold-down screws and pulling each wire out.



2a.

Take your new modular terminal block and remove the cover by prying with a small screwdriver in the slot on one side. Take the telephone wires coming from the wall and pull them through the terminal block opening as shown in the illustration, from back to front. (Continue with steps 3–7)

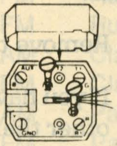


2b.

Pick up your new modular terminal block and remove the cover by prying with a screwdriver in the slot on one side. Pull the telephone wires through the opening in the back as shown. (Continue with steps 3–7)

Desk Phone—Continued

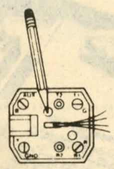
3. (a. & b.)



Now mount the new terminal block to the wall or baseboard—using the same holes that held the old block in place. If the holes do not match up, you'll need to make new ones. To mount the block to a wooden baseboard or other wooden surface, drill or punch small pilot holes to match the openings in the terminal block. Screw the block in place, and be sure that the modular jack faces down or to either side, not up. Now you're ready to connect the wires per step 6.

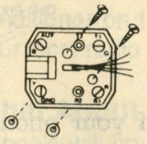
OR: If you're mounting the terminal block on wallboard, you'll need to follow the instructions at step 4.

4. (a. & b.)



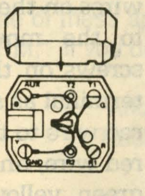
Use a pencil to mark the wall through the mounting holes on the terminal block. Then punch or drill 3/16-inch holes through the wallboard.

5. (a. & b.)



Locate the wall anchors provided, and push them into the 3/16-inch holes. Then place the terminal block over the wall anchors, and use the anchor screws to fasten it in place. When the screws are all the way in, give them both up to six complete additional turns to fully seat the anchors. Be sure that the modular jack opening faces down or to either side, not up.

6. (a. & b.)

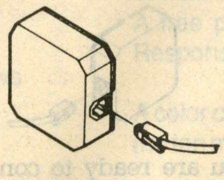


Connect each wire to the terminal block by loosening the terminal screws and wrapping the bare ends around the screws. Connect them as follows:

Red to R1
Yellow to GND
Green to T1
Black to AUX

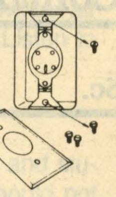
Be careful not to over-tighten the screws, and cut off any excess wire ends. Complete the job by replacing the snap-on terminal block cover.

7. (a. & b.)



Connect the phone by inserting the telephone cord plug into the new modular jack as shown.

1c.

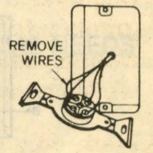


If your phone is connected to a plug-in wall socket as shown in illustration c., begin by removing the wall cover.

2c.

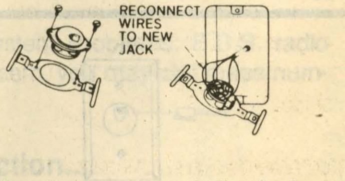
Take out the screws that hold the old 4-pin jack, and pull it out.

3c.



Remove the telephone wires from the back of the jack by loosening the screws on the back and pulling them free.

4c.

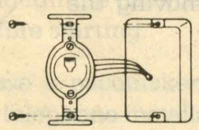


Now take the new modular jack and mount it to the metal mounting bracket as shown. The metal contacts inside the modular jack should be on the top side. Connect the telephone wires to the new jack in the same manner as the old jack was connected—red to red, yellow to yellow, etc. Be careful not to over-tighten the screws, and cut off any excess wire ends after tightening.

Consumer Tips

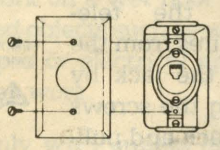
Desk Phone—Continued

5c.



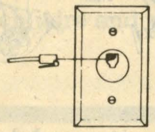
Then mount the bracket to the wall box just as the old jack was mounted.

6c.



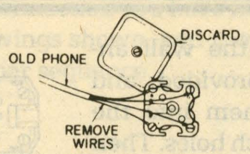
Complete the job by replacing the wall cover.

7c.



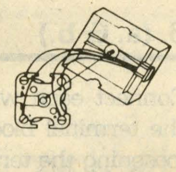
Connect your new phone by plugging it into the wall jack as shown, and the phone is ready to use.

1d.



If your phone connection looks like the one at d., begin by removing the center screw, and discard the cover. Loosen the screws and remove the old phone wires. Do not remove the wires coming from the wall.

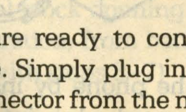
2d.



Pick up your new modular cover. Connect the four wires on the cover to the mounting screws on the old terminal as shown. Connect the new red wire to the screw holding the old red wire, and likewise with green to green, yellow to yellow, and black to black. If you only have two or three wires just connect them as directed above. Now mount the new cover to the terminal block, using the center screw provided.

NOTE: fasten the cover so that the plug-in jack is on the bottom or either side. Do NOT mount it with the jack facing up.

3d.



Now you are ready to connect your new phone. Simply plug in the small plastic connector from the new phone into the jack on the new terminal block cover, and the job is finished.

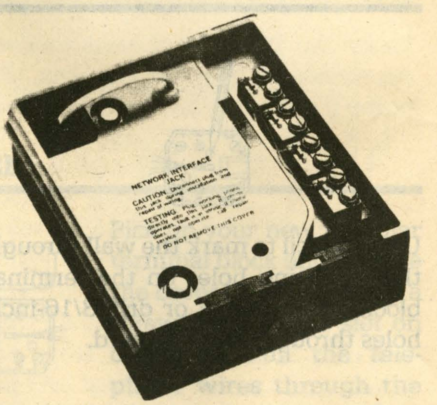
Testing Your Installation

Be sure all telephones have the handsets hung up.

Now lift the handset of the new installation. You should hear dial tone. If the dial tone does not go off when you dial:

- Remove the block cover.
- If you have a telephone at a location other than the one you are connecting, take the handset off the hook. (This will keep the phone from ringing and reduce the possibility of your contacting electrical current.)
- Switch the red and green wires R1 to T1; T1 to R1.
- Snap the cover back in place.
- Test the phone again.

If you need assistance, call the telephone number you were given.



EMERGENCY INFORMATION

How Will I know About An Emergency?

Within 15 minutes of the time an emergency is declared at Arkansas Nuclear One, Entergy Operations Inc. must notify State Officials. Through use of the Emergency Warning System, State officials can notify the public of an emergency within 15 minutes. You will hear a steady siren signal lasting about 3 minutes. If you have an EBS tone alert radio, it will be activated. STAY CALM. When you hear the sirens, listen to one of these local radio stations for information:

KARV	610	AM	Russellville
KWXT	1490	AM	Dardanelle
KCJC	100.9	FM	Russellville
KMTC	91.1	FM	Russellville
KLYR	1360	AM	Clarksville
KLYR	92.7	FM	Clarksville
KCCL	1460	AM	Paris
KCCL	95.3	FM	Paris

What About Evacuation?

Look at the map on the next page and find out which care center you would go to and how you would get there. If an evacuation begins, don't rush, you'll have time. When you leave home, tear out the yellow "NOTIFIED" tag from the back of your Emergency Instructions Booklet. Attach the tag to the front of your home so officials will know you have gone. As you leave the area, tell a neighbor about the evacuation. They may not know about the evacuation and may need a ride to a care center. You may need to stay at the center for two or three days. This will depend on conditions at the plant. Listen to the radio for current information.

Where Are Care Centers?

Morrilton	Morrilton H.S. Morrilton Intermediate North Side Elementary Reynolds Elementary Petit Jean Vo-Tech Southern Christian Home
St. Vincent	Wonderview H.S.
Center Ridge	Nemo Vista H.S.
Hector	Hector H.S.
Clarksville	Clarksville H.S.
Paris	Paris H.S.
Danville	Danville H.S.

What Shall I Take?

-change of clothing
-towels and washcloths
-personal identification
-soap and shaving equipment
-flashlight and batteries
-blankets and pillows
-sanitary supplies
-medications
-baby supplies
-portable radio

What About Sheltering?

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Use telephones only for medical, fire, or extreme emergencies. Remain indoors until told it is safe to go out. If traveling, close auto windows, air vents and put air conditioner on the maximum setting, if needed. Listen to your local radio station for further instructions.

What About The Schools?

Schools will be notified before the general public and students will be taken to a care center. Parents should not attempt to pick up their children at the schools since this will create a traffic problem. Once children are registered at the care center, they may leave with a parent or legal guardian. If it is necessary, students will be monitored for radiation contamination.

Need Special Help?

-hard of hearing
-can't hear a siren
-need a ride to a care center
-need special notification
-handicapped some way

If one of these applies to you, fill out a "SPECIAL NEEDS FORM." If you don't have one, contact:

Arkansas Department of Health
Nuclear Planning And Response
P.O. Box 1749
Russellville, AR 72801
Phone: 968-7171 or 1-(800)-422-6630 (toll free)
Office Hours: 8:00 a.m. - 4:30 p.m.
Monday-Friday

To report Siren Warning System Problems, E.B.S. radio problems, or any urgent concern, you may call these numbers 24 hours a day.

Severe Weather Protection...

The siren system around Arkansas Nuclear One can be used to alert the public of severe weather. This can be done by local officials if they feel it is necessary.

What About My Livestock?

A free pamphlet is available from Nuclear Planning and Response.

A color coded map has been mailed to everyone living within the ten miles of Arkansas Nuclear One. If you did not receive

MT. MAGAZINE TRAIL SYSTEM

The Mt. Magazine Trail System connects Cove Lake with the top of Mt. Magazine where the trail goes through Cameron Bluff Campground, atop Signal Hill, the highest point in Arkansas, and then eastward across Mossback Ridge to the Greenfield and East End Picnic Area. Another portion of the trail follows the shoreline of Cove Lake with a scenic loop leading to a vista overlooking the lake.

The trail is generally 8 percent or less in grade with some short stretches of steeper grades plus a longer steeper grade as the trail leaves the bluff line of Mt. Magazine.

To preserve the scenic beauty of the area please stay on the trail and practice the PACK IT IN-PACK IT OUT concept.

FOR MORE INFORMATION, CALL. 963-3076

"We're Not Comfortable Until You Are!"

AIR DUCT CLEANING SERVICE

Major Reasons to Clean your Air Ducts

SAFETY
Bacteria, viruses, fungi, dust mites and decaying organic matter are sent airborne throughout your home from their hiding places in your air ducts.

EFFICIENCY
Accumulated debris can restrict the air flow in your air ducts, making your system work harder to heat and cool your home.

CLEANLINESS
When we power vacuum the average Air Duct System it is not unusual for us to remove 14 to 17 pounds of dust, dirt and debris. This is what is circulating throughout your home every time your system turns on.

HEALTH
Air duct systems are home to many substances that can aggravate allergies. Mold and mildew find easy living in the dark, moist interior of your Air Duct System.

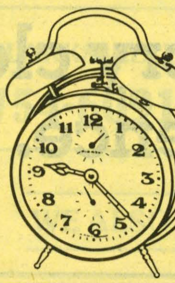
The Yellow Pages
Clock Never
Winds Down



The Yellow Pages are awake when you are, ready to help you make decisions.

They're there 24 hours a day, 365 days a year, with information on businesses, services, crisis lines, helping agencies, and guides to the city.

Yellow Pages serve you at all hours--they don't punch a time clock.

Is the GTE YELLOW PAGES part of your media mix? Television, radio, newspapers and other media do a great job of reaching customers. However, the GTE YELLOW PAGES plays a unique role among all the places where you can advertise. The GTE YELLOW PAGES are there 24 hours a day. All year long when people are ready to buy products and services.

This telephone directory brought to you compliments of GTE

Use the phone before the shovel.

Cutting buried cable can be disruptive for hundreds of people by putting phones out of service. So use your phone first to locate cable. Call us before you dig.
